SMILE WITH CONFIDENCE

DR. DOUG JONES ■ DR. TIM SELLNER ■ DR. SUZANNE CZIRAKI

**Oral B® Triumph®
with SmartGuide™**
– the first and only
brushing system with
a wireless display

Optimal brushing requires not only an advanced toothbrush but also good brushing habits. The new Oral-B Triumph with SmartGuide helps you achieve better brushing with unique features designed to make brushing easier. A quadrant timer prompts you after 30 seconds to move across all four areas of your mouth and a visual pressure sensor lets you know when you are brushing too hard to promote healthy looking gums.

**Now available in the
TechTown
Dentistry
Office.**

Periowave™
A kinder, gentler way to treat gum disease

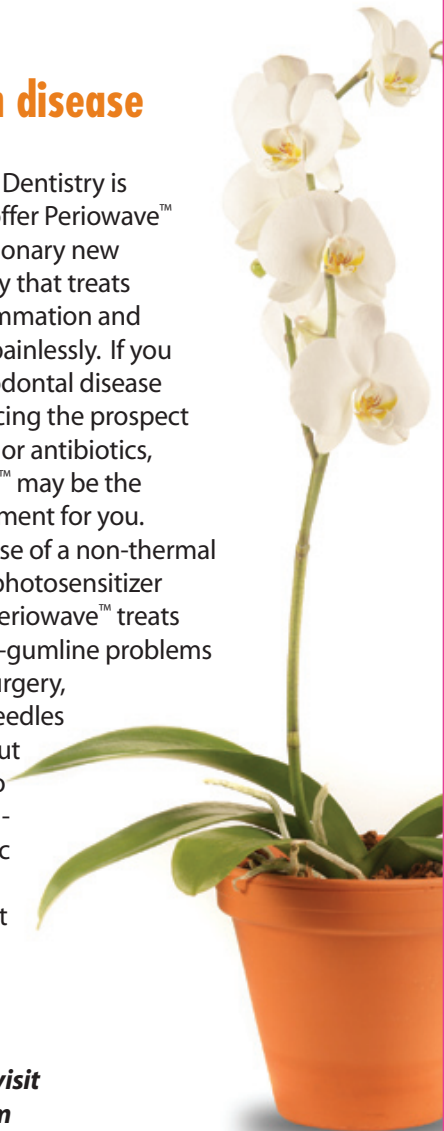

A Periowave in office treatment.

TechTown Dentistry is proud to offer Periowave™ - a revolutionary new technology that treats gum inflammation and infection painlessly. If you have periodontal disease and are facing the prospect of surgery or antibiotics, Periowave™ may be the ideal treatment for you. With the use of a non-thermal laser and photosensitizer solution, Periowave™ treats below-the-gumline problems without surgery, without needles and without pain. It also uses a non-

antibiotic technology that does not promote antibiotic resistance. TechTown Dentistry is committed to providing you with the best, most advanced treatment to make your smile the best it can be. Remember, healthy gums never bleed. Never, ever!

For more information ask Dr. Doug Jones or Dr. Tim Sellner during your next appointment. You can also visit www.techtowndentistry.com or www.periowave.com

Hours

Monday to Thursday 8am to 5pm
Friday 8am to 2pm

TechTown Dentistry

Invisalign® The invisible way to straighten teeth

TechTown Dentistry Staff - Claire, Caren, Alana and Brenda are all Invisalign patients.

When your teeth are straight and properly aligned they function well. When your teeth are crowded and misaligned you have increased risk of premature and excessive wear, gum recession, loose teeth, jaw joint problems and teeth breaking. Orthodontic treatment like Invisalign® realigns your teeth to a healthier and safer bite relationship.

If you are uncomfortable with your teeth, you could be holding back who you really are. Imagine straightening your teeth without bands, brackets or wires. Invisalign's clear, custom designed aligners are an inconspicuous and removable way to capture your beautiful new smile. Many cases that once required braces can now be treated with Invisalign, often in about a year.

Ask us about a free Invisalign consultation. Dr. Suzanne Cziraki, an Elite provider of Invisalign and Canada's leading Invisalign specialist is part of our TechTown Dentistry team.

UPCOMING EVENTS
