Opalescence Tooth Whitening

White done right!

Your smile is one of the first things people notice about you. A healthy, bright white smile makes you feel and look great, and enhances your confidence. Opalescence Tooth Whitening Systems provide 3 affordable options, from in-office whitening to custom and take-home systems, that will fit your lifestyle. Ask us how.

Tréswhite Disposable Trays are simpler, easier and provide better coverage than over-the-counter strips or paint on products.

Invisalign® The invisible way to straighten teeth

Dr. Suzanne Cziraki, Canada's leading Invisalign Specialist.

Imagine straightening your teeth without bands, brackets or wires. Invisalign uses a series of clear, removable aligners, custom molded to you, and straightens your teeth into the smile you've always wanted. The aligners are comfortable to wear and are removable allowing you to continue to eat your favourite foods and brush and floss normally keeping your teeth and gums healthy.

TechTown Dentistry is pleased to have Dr. Suzanne Cziraki, an Elite Provider of the Invisalign System on staff. Dr. Cziraki's speciality training in Orthodontics and Dentofacial Orthopedics allows her to treat malocclusions (bad bites) and facial esthetics in growing children as well as adults. She is dedicated to education and her commitment to the pursuit of excellence in orthodontics makes her a leader in her field.

Call us to set up your free invisalign consultation or ask your dentist for more information on your next visit.
